1. Cybersecurity Forms Explained & Checklist

Date completed or updated _____

Doing an asset inventory and using my forms is an important part of securing yourself and improving your efficiency. Here are the steps.

1. Print forms from <u>JohnBandler.com</u>, at the <u>forms page</u>.

(The forms page URL is: <u>https://johnbandler.com/cybersecurity-asset-inventory-forms-for-the-home/</u>)

Forms to print to paper:

- ✓ 1 Cybersecurity Forms Explained and Checklist (This form)
- □ 2 Personal Primary Device and Data Account Summary
- □ 3 Personal Data summary
- □ 4 Home Device (computer) Inventory
- □ 5 Personal Email & Internet Account Inventory
- □ 6 Network and Internet Summary

2. Complete the forms, filling in relevant information, to the best of your ability.

Remember that you don't need to get it perfect the first time, and you can choose the amount of time to devote to this, and the level of detail.

□ 3. Store the forms in a safe place

These forms have sensitive information on them. Passwords need to be stored securely.

4. Improve your knowledge in important areas, implement Bandler's Four Pillars of Cybersecurity, and set your "cybersecurity dial". Information is available on my website and in my books.

Protect against:

- Email based funds transfer frauds (such as business email compromise (BEC) and CEO fraud) <u>https://johnbandler.com/email-based-funds-transfer-frauds/</u>
- Data Breach https://johnbandler.com/data-breach/
- Ransomware <u>https://johnbandler.com/ransomware/</u>

My one page tip sheet:

Cybersecurity Tips from John Bandler <u>https://johnbandler.com/cybersecurity-tips-from-john-bandler</u>

My two books:

- Cybersecurity for the Home and Office (American Bar Association, 2017) by John Bandler
- Cybercrime Investigations (CRC Press, 2020) by John Bandler and Antonia Merzon

Nerverits Data Davias

□ 5. Repeat periodically. Continually improve your inventory and knowledge.
